N-TRAK
N SCALE MODULAR RAILROADING

Welcome!

LENS is a group of people with a common interest in modeling N scale railroads using the "NTRAK" modular concept.

Any time we meet and/or display our work and promote this hobby, we would love to have you join us.

This means that ALL of us have chances to participate in the hobby by helping with any or all of the following:

Setting up / tearing down
Running trains
Sharing your knowledge
Learning something new
Answering questions
Hosting a meeting

Notice that NONE of the above requires a module. We need your help... so bring yourself, your enthusiasm, your interest and your trains.

Thanks in advance for helping!
Hopefully, we will continue to see you at the meetings and display events.

Come and join in the fun!

SHORT LINE

- * A little over a dozen folks met for the annual picnic, which was held at Lou D's home this year. In addition to nice weather and good company, we had a chance to see Lou's G scale RR run for the first time. It did fine running for almost three hours unattended (except for some occasional wheel cleaning).
- * This month's meeting will be held at Richard F's. It's been awhile since we met there, so we may be surprised by the amount of progress he has made on his home N scale layout.
- * There are no scheduled layouts until December. We are all getting involved in home layouts and many other things. Does anyone have ideas for display venues?
- * We have been contacted by the folks at The Lodge at Geneva State Park about a layout in February. We have tentatively said "OK" and have begun the planning for that event. This is held at the same time of year as the Geneva Winter Fest and should draw folks from Ohio & PA.
- * 1980-1989 MR magazines, complete - \$20 (Dennis L)
- * At HobbyTown in Mentor, a customer has posted a list of N scale items he is selling. Information is on the bulletin board in the back of the store in the NE corner.

See you at the next station!
