

Lake Erie “N” Scale Society

“L.E.N.S.”

May 2023

Over 38 years of promoting model railroading!

Welcome! LENS is a group of people with a common interest in modeling N scale railroads using the “NTRAK” modular concept.

Any time we meet and/or display our work and promote this hobby, we would love to have you join us.

This means that ALL of us have chances to participate in the hobby by helping with any or all of the following:

Setting up / tearing down
Running trains
Sharing your knowledge
Learning something new
Answering questions
Hosting a meeting

Notice that NONE of the above requires a module. We need your help... so bring yourself, your enthusiasm, your interest and your trains.

Thanks in advance for helping! Hopefully, we will continue to see you at the meetings and display events.

Come and join in the fun!

The Lake Erie N Scale Society newsletter is published monthly for the sole use of its members by a crew of volunteers.

Opinions published here are solely those of the editor and/or the members of the Lake Erie N Scale Society.

This publication is intended to be a monthly newsletter describing the business, events and the common interest in N scale model railroading enjoyed by the members of the Lake Erie N Scale Society.

For information or questions regarding our Society, you may contact Dennis Lloyd at 440-352-7081 - or - (denlloyd@gmail.com)

Meetings normally start at 2 p.m., the fourth Sunday of each month.

Last Month's Meeting

The April meeting was held at the Chardon Library. We settled on the modules needed for Railroads in the Park on June 2 at 5 PM. Run times are 9 AM until 5 PM Saturday and Sunday.

On May 26 the T-Trak group will be at the Painesville Depot.

On July 28th there will be a smaller Ntrak layout at Farm Park for the steam weekend.

Also discussed were discussed some problems with some of the modules. Suggestions:

1. do not set modules on their sides unless you are attaching the legs.
2. Put a 3x5 card on the back of your module describing set-up and take down steps.
3. Get some strong spring clamps to hold the modules in position until the C-clamps can be put in place. (Donated by Chuck L)
4. Adjust the lift bridge.
5. Bridge corners need work.

There will be a work session this Friday at 10 AM at Matt K's house for those who can make it.

This Month's Meeting

There is no May meeting. Instead we will have the set-up at Farm Park. (See above.)

Next Month's Meeting

There will be no more meetings until September.

The N-Scale Weekend in Altoona will be September 16-17 at the Blair County Convention Center.

“F.R.E.D.”

See you at the next station!
